

MCIWEST-MCB CAMP PENDLETON 2016 CRITICAL DAYS OF SUMMER NEWSLETTER

WEEK – ALL TERRAIN VEHICLE SAFETY (ATV)

THIS IS NOT JUST A NOTHER TOY...

Too often the ATV is loaded on the back of the truck or trailer and hauled to the nearest open space, off loaded and wheels in the air thereafter.

California most recent reports indicate 124 deaths occurred as a result of careless operation of the ATV's in a span of 4 years; many young and inexperienced operators.

Even though the ATV is not designed for the highway the Institution for Highway Safety and Highway Loss Data Institute reports, in recent years more than 300 ATV operators have died in crashes occurring on public highways annually.

The ATV is a fun piece of machinery that should be enjoyed and respected simultaneously.

The key to properly operating an ATV is familiarization of the equipment. This requires proper training.

Even though operating an ATV does not require licenses per MCO 5100.19F Marines are required to take an entry level course once as an owner or operator.

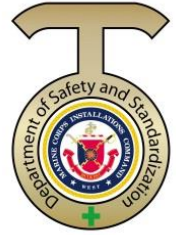

Mr. David Bianco is one of the MCIWest Marine corps Base motorcycle and off road vehicle instructors aboard Camp Pendleton. The department recently was award top military training site of the year and trains the largest volume of military and DoD personal in the Marine Corps. For more information please Contact Mr. Blaine Bromwell @ (760) 763-5070 or blaine.bromwell@usmc.mil

Personal Protect Equipment should be part of the wardrobe each time the ATV takes to the open desert. It is to protect life, limbs, and long suffering and not a nuisance.

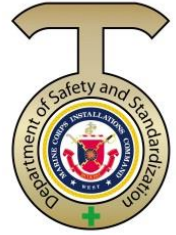

PERSONAL PROTECT EQUIPMENT

- ❖ Regulation Helmet
- ❖ Face shield or goggles
- ❖ Long sleeve shirt(or jacket)
- ❖ Long pants (or riding pants)
- ❖ Gloves

Enjoy the ride
